

Getinge Policy

Getinge Quality Policy

Document ID: POL-00001 rev2

Adopted by the Board of Directors

Quality is a measurement of our performance in providing solutions that are safe and effective, and satisfy our customers' and patients' expectations.

By fulfilling patients', customers', and regulators' expectations, we will secure the success of our customers. This is how we will make life-saving technology accessible for more people.

Our way of working:

- We adhere to an effective, compliant and well-implemented quality system and processes.
- We listen to customers' needs and understand their business. We improve continuously based on customer feedback.
- We encourage a supportive team culture that builds quality and compliance into everyone's daily work.
