

# Getinge da Vinci Solution

A thermal disinfection solution for da Vinci EndoWrist® instruments

# Validated, state-of-the-art

## thermal disinfection for reusable instruments

For over 100 years, Getinge has consistently delivered high-performance processing and sterility assurance products that always meet the most demanding industry standards and can be trusted to give reliable results.

Bring state-of-the-art da Vinci surgical procedures to more patients by improving your instrument reprocessing workflow.

The Getinge da Vinci that works with your Getinge 8668-series and 88 Turbo washer-disinfectors to ensure the thermal disinfection and availability of EndoWrist instruments.

### **Simple**

Process EndoWrist instruments in your existing Getinge 8668-series, S-8668T and 88T Washer-Disinfectors.

### **Validated**

The special racks have been validated for disinfecting S, Si, Xi, and Xi endoscope 2.0.

# Efficient, effective, and flexible instrument thermal disinfection

The three cornerstones of Getinge's verified solution

01

## Getinge S-8668, S-8668T and 88T Washer-Disinfectors

Getinge washer-disinfectors offer short cycle times and high throughput to rinse and thermally disinfect most types of instruments. This ensures optimized instrument reprocessing, so your da Vinci instruments are ready for the next procedure.

02

## The validated da Vinci program

Getinge developed a technically advanced processing program specifically for rinsing and thermally disinfecting complex EndoWrist instruments. It is a frequency pulsing program specifically created for Getinge S-8668, S-8668T and 88T giving superior results.

### Getinge da Vinci racks

The special racks hold up to eight instruments (two full surgical sets, plus two spares), allowing you to increase the number of da Vinci surgeries performed each day.

Our latest rack can independently accommodate Base, Stapler and Single Site EndoWrist instruments in the same process.

# A complete thermal disinfection solution

Get the validation and assurance you need

At Getinge, our innovators develop machines and processes that work together to consistently achieve accurate and consistent results.

## Ensuring reliability, every step of the way

In addition to the three cornerstones of the Getinge da Vinci solution, we can help you take reliability several steps further.

### T-DOC sterile supply management and traceability solution

Helps you to increase efficiency, reduce costs, enhance patient safety and maintain infection control. T-DOC optimizes the circulation of sterile goods to ensure that you have the right instruments in the right place at the right time.

### Take care of your investment

Optimizing your equipment's services is often an untapped opportunity to maximize productivity and reduce costs. A Getinge Care service offering will ensure that your equipment always performs at peak levels allowing you to focus on saving lives.
