

Digital door sign for the OR

Torin SmartView

Ensure a smooth OR workflow with Torin SmartView

This digital door sign gives a transparent overview of planned surgeries and progress updates for current procedures in each operating room.

Detailed and automatically updated info

Torin SmartView simplifies OR coordination and improves workflows inside and outside the operating room.

The digital door sign provides real-time updates of comprehensive OR information and avoids unnecessary disruptions during a surgical procedure.

Torin SmartView helps to increase safety and efficiency. With the help of our digital solutions for hospitals, you can increase safety in everyday hospital life and improve the efficiency of your facility.

Optimize your day-to-day surgical workflow with Torin SmartView, allowing healthcare professionals to focus on providing the best possible patient care.

Benefits

- Current procedure status keeps everyone informed
- Reduces the number of OR door swings
- Improves surgical asepsis to prevent post-surgical infections
- Transparency for the OR staff to support a smooth surgical workflow

Outcome of digitalization

- Silent working circumstances
- Efficient OR workflow
- Reduced workplace stress

Everything at a glance

Torin SmartView provides you with a helpful digital solution to display the current status around an operating room. It displays the current procedure type, progress, performing staff, allergies, infections, risks, equipment used, and information relevant to efficient surgical workflow.

With updated information readily available staff can get back to what is really important: providing excellent patient care.

Integration into existing IT solutions

Torin SmartView can be integrated into your existing hospital IT landscape, including the electronic medical record (EMR), your Torin software solution, or your heating, ventilation, and air conditioning systems (HVAC).

Configurable display

You decide which information should be displayed on the digital door sign. Torin SmartView can be easily configured according to your individual needs. Customize the sign to meet your specific needs by freely selecting the location of key information within the display.

Torin SmartView is included in the Torin Progress solution of the Torin OR Management suite.

With a firm belief that every person and community should have access to the best possible care, Getinge provides hospitals and life science institutions with products and solutions aiming to improve clinical results and optimize workflows. The offering includes products and solutions for intensive care, cardiovascular procedures, operating rooms, sterile reprocessing and life science.
