

Getinge Clean

Alkaline Detergent

Alkaline Detergent is an ideal instrument detergent for removing protein, blood, fat, grease and oil.

Application

For use in mechanical cleaning equipment, cart washers, instrument washers and washer-disinfectors.

Key Features

- Superior cleaning capability
- Cleans surgical instruments, labware, glassware and animal cages

Usage Information

Alkaline Detergent should be used at a dose of 0.2–1.0 oz/gal (2–8 ml/L) depending on water quality. Always follow manufacturer's directions for the particular automatic washer being used. If you have additional questions, consult your Getinge representative.

- Do not add bleach, detergents, or any other chemical to this product. Added chemical may destroy the effectiveness of this cleaner.

NOTE: Some plastics and rubbers are not compatible with detergents or high water temperatures. Check with manufacturer for suitability.

Quality Statement: Confidence in Getinge is the most important quality criteria. This is the hallmark of all our external and internal commitments, activities and products. Products and services supplied by Getinge conform to the agreed terms and expectations. The achievement of these quality goals is the basis for continued competitive and successful enterprise.

Physical and Chemical Properties

- Clear, colorless, thin liquid
- Mild fragrance
- pH value: 13.0–14.0

NOTICE: For institutional and industrial use only. Not for home use. Refer to to Safety Data Sheet (SDS) for more information regarding safety, handling and storage and waste disposal methods.
